

BUY/SELL IN CANADA

Precious Metals Sale Transaction Requirements via Branch Network (Canada Only)

Effective March 5, 2018, the sale of precious metals (bullion/coin/certificates) to a non-Scotiabank customer is no longer permitted.

Precious metal certificates previously sold to non-Scotiabank customers are still allowed for redemption at any Scotiabank branch. For redemption of coin/bullion, non-Scotiabank customers should contact their own financial institution. When selling precious metals to Scotiabank, clients require the following:

1. Original receipt of purchase (Owner must be present with the appropriate identification.)
2. Social Insurance Card

The safety and security of customers and Scotiabank employees is paramount and will be taken into consideration prior to completing the transaction. We reserve the right to refuse or impose conditions on transactions we consider to entail undue risk.
